

TIPS FOR FILING INSURANCE CLAIMS

- If you suffer property damage you will receive the fastest response time if the loss is reported directly to your insurance carrier. Program your insurance carrier's claims phone number into your phone.
- This list is not comprehensive. If you do not see your carrier listed, call our offices for assistance or refer to your policy documents.
- Have your policy numbers readily available. You will need them if you need to make a claim.
- If you file a claim, be sure to provide a phone number where you can be reached. Note that it may differ from the number the carrier has on file. Also provide a valid email address.
- If it is safe, take pictures of the damage for your claim file.
